

## Workshop invitation: Public acceptance and communication of CCS

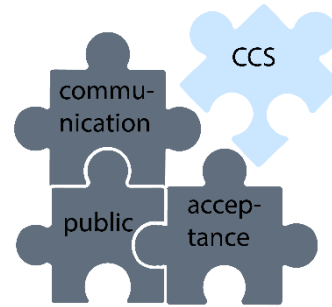

**Date:** 15. November 2023, 9:00 – 16:15

**Place:** Shell Global Solutions International B.V.

**Room:** AO 01-20 Newton, building ETCA, floor 1

**Address:** Grasweg 39, 1031 HW Amsterdam, Netherlands

**Shell contact:** Steve Oates

The workshop is a joint effort between two ACT 3 projects:

- ENSURE - Effective monitoring of long-term site stability for transparent carbon capture and storage hazard assessment.
- SHARP - Storage - Stress history and reservoir pressure for improved quantification of CO<sub>2</sub> storage containment risks.

The main purpose of this workshop is two-fold: 1) inform on results of a large-scale public CCS perception survey and economic experiment conducted in 5 countries (Norway, Germany, Netherlands, UK, Canada), and 2) get input for developing effective communication strategies around CO<sub>2</sub> sequestration for diverse target audiences in member countries.

Register [HERE](#) before November 1<sup>st</sup> (please email [bettina@norsar.no](mailto:bettina@norsar.no) if you experience problems)

### Tentative agenda:

Timeline		Topic	Presenter
9:00-9:05	5 min	Welcome and safety	Steve Oates (Shell)
9:05-9:20	15 min	Introduction	Bettina Goertz-Allmann (NORSAR) & Elin Skurtveit (NGI)
9:20-9:30	10 min	Mentimeter	Daniela Kühn (NORSAR)
<b>Public perception</b>			
09:30-10:00	30 min	Public perception of CCS - Part I	Sven Anders (UoA)
10:00-10:30	30 min	Questions & Discussion	Sven Anders (UoA)
10:30-11:00	30 min	<b>Coffee break</b>	
<b>Different perspectives on communication</b>			
11:00-11:30	30 min	Best practice for knowledge transfer processes and communication of scientific results	Klaus Grosfeld (AWI)
11:30-12:00	30 min	The realities of CCS: public perception and industry perspective	Onno van Kessel (Shell, General Manager for CCUS)
12:00-12:30	30 min	Effective communications towards policy makers [TBC]	Pauline Kruiver (KNMI)
12:30-13:00	30 min	NGOs and Research: Where Information Meets Action [TBC]	Hanna Biro (Bellona Europe)
13:00-14:00	60 min	<b>Lunch</b>	
<b>Public perception</b>			
14:00-14:10	10 min	Mentimeter	Daniela Kühn (NORSAR)
14:10-14:50	40 min	Public perception of CCS - Part II	Sven Anders (UoA)
<b>Panel discussion</b>			
14:50-15:50	60 min	<b>Panel discussion:</b> Navigating the Communication Challenges: Bridging Science, Stakeholders, and Integrated Microseismic Monitoring for a Brighter Future	confirmed: Sven Anders, Pauline Kruiver, Hanna Biro, Onno van Kessel, Stephen Harvey (moderator, Shell)
15:50-15:55	5 min	Closing remarks	Bettina Goertz-Allmann (NORSAR) & Elin Skurtveit (NGI)
15:55-16:15	20 min	<b>Coffee break</b>	
16:15-17:15	60 min	Closed project groups: Integrate outcomes of workshop in SHARP and ENSURE projects	Bettina Goertz-Allmann (NORSAR) & Elin Skurtveit (NGI)

The overall aim of SHARP Storage is to increase the accuracy of subsurface CO<sub>2</sub> storage containment risk management through the improvement and integration of subsurface stress models, rock mechanical failure and seismicity observations.

The overarching ENSURE project goal is the progression of microseismic monitoring technologies to become not only a robust and cost-effective, but also a publicly accepted tool for seal integrity verification in large-scale CO<sub>2</sub> sequestration.
